

# TEST PLAN

## Introduction:

- The goal of this document is to report the information related to the manual tests on the text editor.

## Test Items:

- The text editor (<https://quilljs.com/0.20/examples#full-example>)

## Features to be tested:

- Font feature
- Size feature
- Bold feature
- Italic feature
- Underline feature
- Strikethrough feature
- Text Color feature
- Background Color feature
- List feature
- Bullet feature
- Text alignment feature
- Link feature
- Inserting text
- Deleting text

## Approach:

- Manual testing: individual features
- Manual testing: combining different features
- Accessibility testing using keyboard shortcuts and screen reader

## Item Pass/Fail Criteria:

The evaluation of the text editor will be considered failed if:

- One or more test cases show impossibility of using the software
- One or more accessibility tests show impossibility of using the software

## Risks:

- Unexpected expansion of scope
- Hardware problems
